Comments on Payson Water Co. Consolidation dockets:

I am a long time East Verde Park resident and understand our water crisis here as well as through out the west. Therefore I am not opposed to reasonable water rate increases and restrictions. The rate increases proposed are not just and should be unlawful. We have random water restrictions and at times have been without water. The service and water system need to be improved and we should not be responsible for water hauling due to a faulty system. Also the new fees for reconnection are outrageous. I have and always will try to follow water conservation postings. I use the minimum water each month but will see huge jump in my water bill. On a fixed income the proposed rates will be a hardship as well as impact my property resale value. It seems strange that we live along the East Verde River and will not profit in any way from the pipeline benefiting the town of Payson.
